03 / HARNESSES

HARNESS PANIC harness

Designed for dogs that may panic or suddenly try to back away. The Y-shaped design gives a secure, stable fit and helps reduce the risk of escape when the dog gets startled and tries to move backwards.

- Small (up to 5 kg), medium (up to 10 kg), large (up to 15 kg)
- Prevents backing out and reduces the risk of escape
- Ideal for dogs that panic or are fearful
- Extra safety on walks and in unpredictable situations

TRAINING

RUNNING

Hands-free & multi-use leashes

One leash, many configurations: around the waist, over the shoulder, at double length or tethered to a fixed point.

- Length 250cm & 500cm
- Two carabiners
- Worn at the waist or over the shoulder
- Connects two dogs as well
- Resistant to pulling and moisture

HANDS FREE

CYCLING

SWIMMING

Training leads (long lines)

Long lengths for recall training and free movement, always within a safe framework. HEXA webbing absorbs no water and stays light, even when dragged over grass or sand.

- Lengths 5 / 10 / 15 metres
- Does not tangle and does not hold mud
- Simple handle with 1 carabiner
- High-visibility colours

SHELTERS

Hands – free leash with splitter

A practical, functional hands-free leash for two dogs, designed for comfortable, tangle-free walks. The special 360° rotating splitter lets both dogs move freely in different directions, without the leashes twisting around each other.

- For two dogs with a 360° rotating splitter
- Hands-free fit on shoulder and waist
- Adjustable length on each side
- Tangle-free for greater freedom of movement
